Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Thursday 13 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rain across parts of southwest UK gradually decaying, showers elsewhere.

This Evening and Tonight:
Showers dying out for most of the UK though still some rain for parts of central and southern England and south Wales. Cool in the north, with mist and low cloud developing over some northeastern areas.

Friday:
Mostly dry and fine but fairly cloudy for eastern and northern parts. Wales, southern England and Northern Ireland seeing sunny spells and showers - heavy and thundery in Northern Ireland.

Outlook for Saturday to Monday:
Showers developing widely each day, some of which will be heavy with a risk of thunder, especially in the south. Temperatures still on the cool side.
